Hiring Committee
Samuel Hall
Nairobi Office

Dear Hiring Committee,

I am writing to express my strong interest in the position of Research Assistant Intern (RA) – Nairobi under the Research and Policy Pillar (P1) at Samuel Hall. As a Bachelor of Science graduate in Mathematics and Physics from Meru University of Science and Technology, I bring strong analytical, data-handling, and problem-solving skills, combined with field-level research experience and a deep interest in human-centered development and policy impact.

Throughout my academic journey, I engaged in multiple research projects involving data collection, interview transcription, and policy-aligned reporting. I have hands-on experience conducting secondary research and fieldwork, working with community-based teams to collect and analyze socioeconomic data. These experiences shaped my ability to contribute meaningfully to research tools, client reporting, and evidence-based project outcomes.

I am fluent in English and Kiswahili, highly attentive to detail, and able to thrive in fast-paced, multicultural environments. I am deeply inspired by Samuel Hall's mission to bridge global policy and local realities, and I am eager to support your efforts to amplify underrepresented voices through rigorous research and narrative change.

Thank you for considering my application. I am confident in my ability to contribute effectively to your team and welcome the opportunity to discuss how my background aligns with Samuel Hall's goals.

Yours sincerely,
Nambafu Nasiuma Chrispinus
