Dear Sir/ Madam,

REF: APPLICATION FOR INDUSTRIAL ATTACHMENT

I am a 3rd student pursuing a Degree in Physical sciences; Bachelor of Sciences in mathematics and physics at Meru University of Science and Technology. I wish to apply for an attachment at your organization. It is a requirement that I spent three months in a field that is related to my area of study prior to the final year program, I wish to apply what I have learned to contribute to your organization and the community.

I'm excited to submit my attachment documents at this great organization. For three years now I have interacted greatly with my coursework and have developed a strong confidence to operate, closely supervise and analyze the functionality of electronics and other industrious machines. Therefore, I believe I will be a worthy asset to your team. The coursework has made me acquire detailed information on the Physics principles under which machines and systems would work effectively and efficiently. Most of the physical/ technical problems are mathematically worked out, hence with the mathematics knowledge I am capable of numerically dealing with the available data to come up with more economical solutions. The practical sessions as part of my coursework have made me interact with several electrical machines although in small scale. Surprisingly, even at small scale, I managed to operate, supervise and analyze their functionality such that I would tell which were effective for production over those that were defective.

I believe I will excel in your team, bringing careful attention to detail and technical skills to help the company thrive to higher production rates. Am looking forward to launch my real-world experience in

the technology industry in your organization. Am sure the experience will help me develop and refine my technical skills.

Yours faithfully,

Nambafu chrispinus

TO WHOM IT MAY CONCERN

Dear Sir/Madam

RE: REQUEST FOR INDUSTRIAL ATTACHMENT POSITION

This is to certify that Mr Nambafu Nasiuma Chrispinus, Registration No SC201/107837/21 is a student at Meru University of Science & Technology undertaking a degree in Bachelor of science in Mathematics and Physics under the Department of Physical Science

This is to kindly request your Company/Organization/Ministry to assist our student by offering an attachment opportunity for the period between May – August 2024. The purpose of this industrial attachment is to help students acquire practical experience while undertaking their course of study.

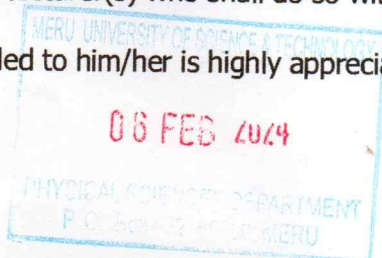

While on attachment, the student will be under the supervision of your management and will be expected to behave well, abide by your rules and regulations and co-operate with the attachment station personnel.

The student is in possession of a logbook that shall contain a record of daily duties assigned to him/her that shall be checked and signed by your company supervisor. The student is also expected to be assessed by our lecturer(s) who shall do so within the attachment period.

Any assistance accorded to him/her is highly appreciated.

Yours Faithfully,

Dr. Simiyu Wamalwa
Chairman of Department- Physical Sciences
